

Series Programming Agreement

A series is a specific designation for AMP programming which will be designated a specific slot in our weekly programming schedule. Series programmers should be experienced producers or programmers who can routinely deliver programming content. In order to acquire a series designation you must have an approved project proposal and intend to submit at least 13 programs. Series programming will usually repeat up to four times per day.

Programmer's Name _____

Programmer's User ID Number _____

Series Name (should match project name) _____

Series Description for publications _____

I agree to fulfill the role of a series programmer as outlined in the AMP Policies and Procedures Manual. I have completed and submitted three programs for this series. I understand that AMP will make a best effort to air my content at the agreed upon time(s) and that AMP staff reserves the right to preempt my series in accordance with the Policies and Procedures. I agree to submit new programming at least 72 hours before my series is due to air.
